During your first consultation with one of our Functions Advisors please outline your requirements and thoughts on how you would like your hired area to look. If needed, we will supply basic decorations such as balloons, however for more extensive room sets you will be required to provide materials yourself.

Music will be set up for your function as a standard measure at no extra charge. We are happy to discuss your requests during your consultation, however we must note that music is generally provided for the whole venue to enjoy and must therefore stay in line with this. If you require P.A/microphone facilities please discuss this with the Functions Advisor, as well as any visual aids, such as digital photographs, you wish to display on TV screens and monitors in your hired region.

Beverage Packages

Good Times has a basic or premium beverage package, both of which can be limited and designed between the client and the Functions Advisor. For functions carrying 20 people or more, we offer a 10% bonus allowance; for example, if the package agreed is \$1000, Good Times will add on an extra \$100 for no extra charge to increase the limit to \$1100. We also offer drinks packages from one to three hours with a price per head for groups of 20 people or more.

Our functions menus are located at the end of this package for your consideration.

Our expert kitchen team are flexible and therefore if you have any specific requests that are not included in the menu attached, please discuss these with the Functions Advisor during your first consultation.
